Saint Louis

Don't forget that we are an approved supplier of Saint-Louis chandeliers and lighting.

They have launched a fantastic new app which allows you to build a chandelier for a specific room, whether this is adding shades, changing the colour of pans or putting on extra dressings. You can even take a photograph of your room and the app can give an impression of what it would look like in situ.

In addition we are experienced in the installation of Saint-Louis chandeliers, this month we installed the 8 light Royal chandeliers with Apollo platinum rim hurricane shades you can see to the right, in a luxury showroom along with chandeliers by Baccarat, Moser and Lalique.

French cage chandelier

Our newest piece of stock available for purchase is a continental style brass cage framed chandelier dressed with French slabs, rosettes, tri-icicles and uniquely shaped drumsticks. The 12 light chandelier also features spikes on the upper and lower tiers. The tall slim chandelier would look wonderful hanging in a staircase or sitting low over a dining table.

Height 130cm Width 85cm

What's happening this Summer...?

Summer is always a very busy time of year at Wilkinson, while many of the Livery companies and private members clubs are closed for their Summer recess, it gives us an opportunity to get in to clean and repair any unfortunate damage that has occurred during the year, so if you want to book us in to do any work for you call now so we can guarantee you the date you need.
